

# TISL'S OPEN DAY

Volume 1 / Issue 1

**TRINIDAD INSPECTION SERVICES**  
— INTEGRITY MATTERS —

## A RECENT SUCCESS

TISL recently hosted its 2<sup>nd</sup> annual open day at its Pt. Lisas headquarters showcasing all new advanced services to clients.

TISL offers a comprehensive range of advanced integrity services to tackle the ever-increasing demand for intricate, non-intrusive inspections.

## STATE-OF-THE-ART EQUIPMENT

Our equipment delivers solutions that meet the industry's most challenging problems. Why go foreign, when the latest and the greatest is available right here in Trinidad!

### Showcased NDE equipment included:

- Guided Wave Ultrasonics
- Pulsed Eddy Current
- Eddy Current Array
- Phased Array Ultrasonics w/ TFM
- Drone Inspection System
- Bolt Torqueing
- Digital Radiography
- Advanced Borescope Technology
- Infrared Thermography
- Hybrid Spectrometers

## TISL HOSTED OUR PARTNERS FROM CLOCKSRING AND TUBE-MAC

- ClockSpring's recent merger with Citadel Technologies has further strengthened their product line in Pipeline Repair Solutions. Clients were introduced to the new products with live demos.

<https://www.clocksring.com/>

- Tube-Mac delivered convincing demonstrations of its innovative Pyplok weldless technology that connects piping and tubing mechanically.
