API 570 Preparatory Training

**API 570 PIPING INSPECTOR
CERTIFICATION
Self Paced-Online 2024**

Trinidad Inspection Services Ltd. in Association with Atlas Training will be conducting an Online Training Program for candidates in preparation for the API 570 Certification Examination.

(API Standard 570 Piping Inspection Code: Inspection, Repair, Alteration, and Rerating of In-Service Piping Systems.)

Course Structure

The API 570 Training Course is structured with mainly self-paced study exercises. Attendees are expected to complete all exercises on their own, since lectures, practice questions, timed practice exams, practice quizzes and audio flashcards, all work towards achieving the learning objective. Instructor support is available via e-mail for any issues or questions that require clarification. (Further details on Page 2).

Basic Requirement

All course attendees are required to have a working computer with audio/video capability and internet access. Classes will be conducted on an online platform.

Who can benefit from this program

Inspectors, Quality Managers, Plant Engineers, Maintenance Personnel, Contractors, Storage Tank Owners/Users, Supervisors, and other qualified persons.

Tuition

Cost: - \$6,800.00 TT + 12.5 % Vat (\$850.00)
(Total \$7650.00 Vat Inclusive)

Prices are valid until end of June 2024 and may be revised thereafter.

Application Deadline Training – N/A

Please see attached registration form on Page 3

COURSE DETAILS

Overview of the API 570 Course Material

This is a 60 hour online exam preparation course. The course is presented in a power point presentation with voice over from the instructor. He will guide you through, so that you will learn the material needed to pass the exam. You can start and stop the class as needed. The program will be bookmarked, and you can pick up right where you left off. This format allows you to proceed at your own pace. You will not be rushed through the class. You can slow down when needed or speed up. It is up to the individual. You can repeat the course three times or just repeat the lessons that you need to repeat. This provides the easiest and most effective way to study for the exam. If you have any questions, just email it to the instructor and he will answer. There are over 900 quiz questions all throughout the lessons. These questions are structured the same way that you will see them presented on the certification exam. The questions are graded, so that you know how you are progressing. You can study anytime and anywhere with an internet connection. There are downloadable practice exams to help

TISL –API 570 Piping Inspector Certification program

in preparation. This course provides 60 PDH's for the CWI renewal, CWB Renewal and for Professional Engineers. To receive a certificate, you must have 60 hours of class time.

All Code books for this course are the responsibility of the participant. These may be ordered through Global Engineering Documents or Techstreet.
