API 653 Preparatory Training

API 653 ABOVEGROUND STORAGE TANK
INSPECTOR CERTIFICATION PROGRAM

Self -Paced Online
2024

Trinidad Inspection Services Ltd. in Association with Atlas Training will be conducting an Online Training Program for candidates in preparation for the API 653 Certification Examination.

(API Standard 653 Tank Inspection, Repair, Alteration, and Reconstruction.)

Course Structure

The API 653 Training Course is structured with mainly self-paced study exercises. Attendees are expected to complete all exercises on their own, since lectures, practice questions, timed practice exams, practice quizzes and audio flashcards, all work towards achieving the learning objective. Instructor support is available via e-mail for any issues or questions that require clarification. (Further details on Page 2).

Basic Requirement

All course attendees are required to have a working computer with audio/video capability and internet access. Classes will be conducted on an online platform.

Who can benefit from this program

Inspectors, Quality Managers, Plant Engineers, Maintenance Personnel, Contractors, Storage Tank Owners/Users, Supervisors, and other qualified persons!

Tuition

Cost: - \$6,800.00 TT + 12.5 % Vat (\$850.00)
(Total \$7650.00 Vat Inclusive)

Prices are valid until end of June 2024 and may be revised thereafter.

Application Deadline Training – N/A

COURSE DETAILS

Overview of the API 653 Course Study Material

This API 653 training course online is 60 hours long. This is the easiest and least expensive way to prepare for the tank inspector certification exam. This training is self-paced. You can stop and start whenever you like. Your stopping point is bookmarked so you can pick back up where you left off. You can repeat the entire course, or individual lessons that you would like to review. Work at your own pace. You will never be rushed, and you will never be slowed down. You can email your questions to the instructor for quick answers when you need help.

There are practice quizzes throughout the API 653-course study material along with timed practice exams at the end of the lessons. There are over 1,000 exam type questions in the quizzes to help you become familiar with the kind of content that will be asked on the actual exam. This is a significant part of the Atlas API training. The timed practice tests are beneficial in letting you know how well prepared you are. There are also three additional practice tests that are made up of API 653 exam questions available to download. There are audio flashcards containing questions and answers that can be listened to while driving at the office, or just relaxing at home.

Training online is the best option for the busy industrial professional. The course is open for 120 days after purchase. This API 653 training course is accredited with the AWS for 60 professional development hours (PDH) for the CWI 9-year renewal, CWB Renewal and for Professional Engineers.

All Code books for this course is the responsibility of the participant. These may be ordered through Global Engineering Documents or Techstreet.
